

Toluidine Red

General Properties:

Color Index::	PR3
C.I. No.:	12120
CAS No.:	219-372-2
Chemical Group:	β -Naphthol

Introduction:

Toluidine Red is a bright scarlet shade, opaque, with good light fastness.

Physical Properties:

Moisture %:	≤ 1.0
PH Value:	6.5-7.5
Conductivity uS/cm, :	≤ 500
Oil Absorption ml/100g:	≤ 50

Fastness Properties(powder):

Light Fastness:	7
Water Resistance:	4
Oil Resistance:	4
Acid Resistance:	3
Alkali Resistance:	3
Heat Resistance:	120°C

Applications:

Recommended for Industrial Paints, Water & Solvent-based Paints.
